

Local Elections 2022

Walking the paths that criss-cross our communities and countryside brings us closer to nature, connects us to each other, and to the heritage of our local spaces. Exploring high quality nature-rich places improves our health and happiness and helps us relax and unwind.

We are calling on councils and councillors to:

Improve the local path network, ensuring that Rights of Way teams have the resources they need to fulfil their duties, particularly the signage and maintenance of paths.

To help raise the profile of the importance our paths and green infrastructure, including by appointing a Cabinet member as a Public Rights of Way champion.

To ensure green volunteering is supported through local authority projects, and that infrastructure planning, new developments and regeneration always create a better walking environment.
