2. Update from Ramblers GB

- 2.1 Alison welcomed Vanessa to speak.
- 2.2 Vanessa gave an overview of how Ramblers GB supports the Ramblers Scotland team. Vanessa spoke on the importance of organisational collaboration, both internally and externally. She spoke about how the organisation's relationship with the People's Postcode Lottery started, and how in 2017 Ramblers GB became a direct beneficiary, which gained funds in the past three year for important works such as Ramblers Scotland's Walk Leadership programme and the Data and Digital transformation programme.
- 2.3 Vanessa reviewed the 2018 year, explaining that it was a year of transformative change. She spoke about how necessary it is to work towards infrastructure change, specifically digitally. She spoke about how important it is to run campaigns, noting the importance of cross-GB work whilst understanding the differences between nations. She mentioned the Britain's Best Walking Neighbourhood and called the Council to nominate the neighbourhoods they favour.
- 2.4 Vanessa spoke about her goals for the Ramblers GB for the coming year, with a focus on growing membership. She explained the challenge of steadily declining membership over the past fifteen years, and the importance of focusing efforts to counter this. Her goal is to level off membership rates in the 2019 year, and work to increase numbers in years following. She explained that the goal was to have 128,000 – 130,000 members by 2022 and to be communicating this mission through the year. In line with this, Vanessa explained that Ramblers GB will be revitalising the membership process to make it less complicated and to appeal to various audiences. Vanessa called on the Council to help with welcoming new members into groups, explaining that evidence suggests that 75% of members join and stay for the group walks. She went on to explain that one of the biggest areas for change for keeping new members is the groups flexibility towards new people and towards the walks they lead. She warned that if Ramblers don't try then the decline is likely to continue, so she asked the Ramblers to work in partnership with each other – both inside and outside the organisation.

3. ANNUAL REPORT – Ramblers Scotland

- 3.1 Jess spoke about the Ramblers Scotland 18/19 year. She referred to the Annual Report, highlighting the Ramblers Scotland team. She went on to describe the Annual Report through three key stories.

She mentioned the Roadshow in Stirling, area leadership, digital support. Jess also highlighted Jeannie's Journeys across Scotland

Helen spoke about the time she spends responding to public enquires and collaborating with the Scottish Environment Link as well as giving interviews.
- 4.3 Helen explained the thinking Ramblers Scotland considers when questioning if the organization is having an impact. Helen highlighted how repetition of message and collaboration results in positive impact for Ramblers Scotland campaigns, highlighting specific campaigns on access, specifically two court cases where the access authority won, in which Ramblers Scotland gave public support. Helen mentioned the current work on Coul Links, where Ramblers Scotland is rejecting the planning for a golf course.

- 4.4 Helen mentioned the current work on paths – 84,000kms of paths that do not appear on OS maps in Scotland, including 21,000kms of core paths that are not on OS maps. She explained that 75% of members surveyed found that people would enjoy Scotland's paths more if they were on the ground and on the map. She mentioned the work the local groups have been doing, specifically the River Clyde 2050 strategy, and more.
- 4.5 In looking forward, Helen commented that the majority of her work will be on the Coul Links public inquiry, where Ramblers Scotland has partnered with ScotWays. - 6.3 Laura explained where the progress of the digital transformations has gotten to over the past year, citing the work being done on various tools.
- 6.4 For showcasing, Laura gave a description of Insight Hub, described as a form of self-service intelligence to help members understand their group and area activities. Laura commented that it helps Ramblers evidence their impact, and that data quality is improving, with nearly 1000 volunteers on the Hub, path issue submissions increased, and email opt-ins have increased.
- 6.5 Laura also gave a picture walk-through of the members app, which is likely to be launched in April 2019. The app will give access to all led walks and routes available in Great Britain. Users will be able to submit walks, access mobile membership card, access a message inbox, and groups will be allowed to communicate directly with members, as well as other features. The second version of this is in development.

Jay spoke about Jim, how he's done a complete survey of the trail. Jay said there is already a published Harvey map, and that for the 2021 walking season he expects to have a published Cicerone guide
- 9.2 Visitors walks and increasing membership – Martin Davison (Eildon Ramblers)
Martin shared his group's growth, explaining that team work and a strong committee has been essential to their success. The group has been using social media and have produced a trifold leaflet to promote his group across the towns in his area. Fun and fitness have been the forefront of his group's philosophy. He explained that the group hosted a Welcome to Walking day which resulted in half a dozen new members, and are hosting the Gathering this year in Melrose.
- 9.3 Maintaining Paths – Elaine Collins (Glenrothes Ramblers)
Elaine gave a virtual presentation through a video she submitted. She explained that her group lacked circular trails in the area. Local walkers and visitors wanted to revitalise trails, and that around 5 miles of country paths allowed connections. With community support, the group was able to create new paths.
- 9.4 Promoting your Group – Patrick O'Sullivan (Isle of Bute Ramblers)
Patrick reflected on how few walk leaders and recruitment efforts the Isla of Bute Ramblers have. To tackle this issue, Patrick used a variety of recruiting techniques, such as pinning a banner in a highly visible location, distributing leaflets, and partnering with community centres. He works with the group at local events to promote membership.

- 9.5 Maintaining the Gordon Way – Maureen Corley (Inverurie Ramblers)
Maureen spoke about the volunteering activities her group has done locally on the Gordon Way, an 11.5 mile trail. She explained that it runs through forestry land, open moor land, and agricultural land, and that she encouraged her group to create a volunteer day a month in their programme to maintain the trail. Members of the group cut back the vegetation to keep the trail clear, which opens the trail and encourages views. They've had great feedback from people, and some of their work has revealed parts of the path, like steps, that need replacement. Maureen explained that sharing resources has been essential to their success and that the local ranger has been a huge help.
- 9.6 Walks from the railway stations – Wraight Shepherd (Stirling, Falkirk & District Ramblers)
Wraight welcomed the Council to his local group. He commented that there are local paths that are accessible via train. - 11.1 Scottish Council accepted and approved the minute (Paper 03). This was proposed by Michael Docherty, Paisley group, and seconded by Douglas Tullis, Edinburgh group. There were no matters arising from the minute.

12. REPORT AND ACTION TAKEN ON 2018 MOTIONS

- 12.1 Alison presented the paper outlining the actions that had been taken on motions passed at Scottish Council 2018.
- 12.2 Douglas, Edinburgh Ramblers, explained SCEC's rejection of the motion remitted to it by Scottish Council 2018. Ramblers Scotland and Ramblers GB have a Memorandum of Authority in place which sets out their respective areas of influence which, by and large, correspond with the matters that are devolved to Scottish Government or reserved to Westminster under the Scotland Act. This motion concerns telecommunications which is reserved to Westminster and correspondingly to Ramblers GB. Ramblers Scotland's contacts are with Scottish Government and Scottish organisations which have no role in relation to telecommunications. Any campaign to extend the coverage of mobile phones would more appropriately be pursued by Ramblers GB, and, if those proposing this motion want to pursue it further, they might consider putting it before General Council.

- 12.3 Alistair went over the action taken from last year, referencing paper 4b. Motion 2, about bridges, and Motion 5, about guidance for local members have both passed for material to be prepared, and a paper was circulated.

13. STATEMENT AND ADOPTION OF ACCOUNTS

- 13.1 Alistair gave details of the income and expenditure audited accounts (05), the Ramblers Gathering Accounts (06), and of Ramblers Scotland finances (07). Alistair highlighted that in comparison to previous years there has been a significant drop in income and spending as the Scottish Council expenditure is now included in the Scottish Office accounts.
- 13.2 Alistair explained that most of the funds are volunteer and SCEC related expenses. There was also a campaign fund that has no future reports as it has a zero balance, and a small surplus that was given to Ramblers Scotland staff to use on Scottish Council. Alistair gave a brief overview of the funds for the Gathering. He described the account that covers the costs of the Ramblers Scotland office accounts, which comes from a variety of sources including membership fees, donations, and from Ramblers GB. Alistair concluded by giving an overview of the Ramblers GB accounts, highlighting the income from the People's Postcode Lottery which is being spent on new initiatives such as data and digital transformation project and the Walk Leadership programme.

- 14.3 Alistair commented that General Council will have the full accounts information for those who are interested.
- 14.4 The adoption of accounts was proposed by Trevor Jones, SCEC, and seconded by Andy Malby, SCEC, and accepted by the Council and was therefore formally approved.

Alistair and Douglas, the proposers of Motions 1 – 3 were given the choice to decide which motion to withdraw and they decided on withdrawing Motion 3. Barry noted no further recommendation for wording, that there was no need for compositing motions together, and that the order was decided by the order submitted.

21.3 Alison thanked Barry for presenting the order paper and opened the floor up for debate.

21.4 The order paper was duly accepted.

22. MOTIONS

To amend the Constitution and Standing Orders to rename the Ramblers' Association Scotland as Ramblers Scotland

Vote – The motion was passed unanimously.

22.2 Motion 2 – submitted by Alistair Cant

22.2.1 Alison Mitchell called on the proposer Alistair Cant (member of SCEC) to present the motion. The motion stated:

To amend the Constitution and Standing Orders to rename the Agenda Committee and Order Paper to Motions Committee and Motions Order Paper

Alistair explained that the name was inherited and does not suit the role of the Committee.

22.2.2 The motion was seconded by Douglas Tullis.

22.2.3 Liz Hunt commented that the Agenda Committee of Ramblers GB is changing names as well this year.

Vote – The motion was passed unanimously.

22.3 Motion 3 – submitted by Alistair Cant

22.3.1 This motion was withdrawn by the proposer, Alistair Cant, (member of SCEC).

22.4 Motion 4 – submitted by Clydesdale to Solway area

22.4.1 Alison Mitchell called on the proposer Eric Pickering. The motion stated:

Waymarking Scotland's Paths by Ramblers Volunteers.

This Scottish Council believes, that in line with Ramblers Scotland's Vision and Strategic Framework to promote walking for Scotland's wellbeing, making all core paths easier to follow by utilising Ramblers volunteers to follow, say, French waymarking practice would be worthwhile, and therefore instructs SCEC to investigate the feasibility of this proposal.

Eric explained how hardly any paths are waymarked, and how this is an issue. His proposal would look to have volunteers mark paths in an agreed way, in order to have more paths identified.

22.4.2 The motion was seconded by Garry Tait, Moffat group.

22.4.3 There was a question as to the legal position of marking on someone else's land. Douglas answered that Ramblers Scotland volunteers have no legal basis to mark core or other paths without the consent of the landowner. He went on to say that local access authorities do have this power and can appoint volunteer rangers to waymark.

22.4.4 There was a question as to how this motion relates to the Out There campaign. Jess answered that it relates in the sense of mapping Scotland's path, which is currently working with digital datasets. Part of the next phase will be looking at waymarking and signposting. She commented that the legality of the situation is not something Ramblers Scotland could decide, rather that it would require robust partnerships.

22.4.5 There was a comment about how the John O Groats trail worked with landowners successfully. There was a comment addressing concern for how clear the signs would be and how to educate people on a new way to read signs. There was a comment about how this project could expand volunteer roles in local communities. There was a comment about how no waymarks can cause concern for landowners.

Vote – There was a clear majority who voted in favour. There were none against. There were two abstentions.

22.5 Motion 5 – submitted by Glasgow group

22.5.1 Alison Mitchell called on Eleanor Peacock, Glasgow group to propose the motion on behalf of the group. The motion stated:

Planning Regulations are needed to tackle the proliferation of damaging hill tracks on the uplands of Scotland

22.5.2 The motion was seconded by Catherine Watt.

22.5.3 There was a comment that the motion needs to look at something wider than planning permission, due to the nature of people creating hill tracks being able to remove the condition on their permission that sets a time limit to the permission and are thus able to have the hill track indefinitely.

22.5.4 There was a question as to whether the Scottish Environmental LINK amendment to the Planning Bill is coming into Scottish Parliament. Helen commented that the Planning Bill is coming into consideration at Scottish Parliament in May 2019. Her aim is to focus on the tracks that are not in the planning system and then turn to making the planning system better with some measure of public scrutiny.

22.5.5 Alison Mitchell commented that SCEC will look to support the motion.

Vote – The motion was passed unanimously.
