

A guide to walk grades – Shrewsbury Ramblers

Walk length

The approximate walk length is given in miles to the nearest half mile. This is independent of the walk grade.

Walk Grade

This is a guide to the difficulty of the walk

Easy – undemanding terrain mostly flat e.g. canal towpaths and easy field boundaries

Moderate – undulating terrain, stiles and more difficult surfaces e.g. ploughed fields

Moderate + - some steep climbs and maybe challenging field crossings

Strenuous – sustained climb e.g. Welsh mountains

Walk leaders will indicate if there are other considerations and are happy to provide further information if walkers telephone beforehand
