

Getting your single Ramblers' account – using a computer

Why do I need a new account?

It's really annoying to have loads of different usernames and passwords to remember. The single Ramblers' account will mean you'll only need to remember one for all of our systems. All of the new apps, sites and systems will use this and we're gradually updating our existing ones too.

Do I already have this?

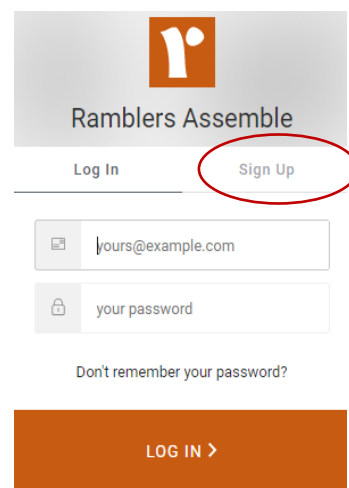

If you recognise the orange box, you do! So, you can just stop reading and go and log in. If you've used the Members' App, Assemble or the Insight Hub, you'll already have set up your account

But I already have a login for the website.

That's not the same. Our website uses a different login, at the moment, so you'll need to get this new single Ramblers' account for the other systems.

First time - Sign Up (you only do this once)

1. Go to <https://ramblers.goassemble.com>
2. In the orange box, click *Sign Up*.
3. Type in your email address and a new password. It should be at least 8 characters long and must include upper and lower case letters as well as a number or special character (!@\$#%~&*).
4. Type in your surname in the box provided.
5. Type in your Ramblers' membership number in the box.
6. Click on the orange **SIGN UP** button.
7. That's it! You'll be taken to Assemble.
8. Save Assemble as a favourite/bookmark in your browser so you can log in again easily. *Don't save the page with the orange box.*

Next time - look out for the orange box

Whenever you see the orange box use the email and password you've just set and click Log In. It's that easy. Whether it's the Members' App, Insight Hub, Membership Secretaries' Dashboard, Pathwatch Dashboard – they all use the same orange box so your single Ramblers' account works there.
